Dear Dr Ramsey

**Re: Mr John Dexter DOB 1/9/40  
Seapie Corner Alma Place Yarmouth PO41 0QQ**

Further to my letter when I saw Mr Dexter back in August, he has contacted my secretary with an update. He replaced Madopar with Sinemet according to the general instructions in my last letter. I was pleased to hear that this had a positive effect, with some improvement of his tremor and also better mobility. I hope that these improvements are maintained. Please get back in touch in future if you have questions or concerns. Mr Dexter of course lives on the Island, which is a fair way from where I now practise. You would be in a position to refer him to Dr Manson on the Island, if he wants to see someone locally.

With best wishes.

Yours sincerely
